A PLEA FOR STATEHOOD

Territorial Delegate Roddy Talks Before the Committee—Favors Increased Salaries When State.

TRIBUTE TO BURKE, TEXAS

Lenham of Texas Objects to the President Receiving Protection—The President the Same as a Citizen—Other Capital News.

HOUSE PAYS RESPECT TO LATE REP. BURKE OF TEXAS.

Washington, Feb. 8.—The house laid aside public business today to pay tribute to the memory of the late Representative Robert E. Burke of Texas. President SAME AS CITIZEN.

Washington, Feb. 8.—Representative Lenham, Texas, Democratic member of the house judiciary committee, today presented the minority report on the bill for the protection of the president against assault and conspiracy. While agreeing with the idea that the United States should not be made an asylum for anarchists and those who oppose organized government, yet he dissented from giving the president protection not accorded to other citizens. He holds that the states should deal with the subject, and this federal law probably would magnify the importance of assassination in the distasteful fancy of those seeking to destroy rulers.

STATEHOOD FOR NEW MEXICO.

Special to the New Mexican.

Washington, Feb. 8.—The third hearing upon the bill for an enabling act for New Mexico was had before the house committee on territories this forenoon. Delegate Roddy made a speech for an hour and a half. It was a compendium of facts and statistics, absolutely unassailable and convincing. Numerous questions were put to him by members of the committee and were all answered satisfactorily. Every member of the committee present is a friend to New Mexico and statehood for the territory.

In the house on yesterday Delegate Roddy made a speech, joining Delegate Flynn of Oklahoma, and Delegate Smith of Arizona, in fighting for an increase of salary for the chief justice of the supreme court to \$5,000 and the governor's salary to \$5,000 per annum. Representative Gaines of Tennessee, opposed the amendments put by the three delegates to increase the salaries of the governor and justices of the supreme court. Delegate Roddy answered that "if congress will admit New Mexico as a state, the United States will be relieved of the expense of paying the salaries of the governor and justices."

According to this plan all necessary information concerning the lad's condition will be transmitted to President Roosevelt, who will determine what news shall be given to the public.

The young men had been out riding together and returned to the village about six o'clock. When about to separate young Reed noticed a photo button of his sister which his companion was wearing, and demanded its return. To this Green strenuously objected, and the argument soon led to blows. Reed striking Green a crushing blow in the face. The latter immediately drew a pocket knife and slashed young Reed across the forehead and again across the throat through the coat collar.

A crowd soon gathered but Green escaped while they were looking after the injured party. The doctors think Reed will recover. Both boys are 18 years old.

Sufficient Money Raised for Expenses—The Santa Fe Will Make No Charge for Transporting—Bureau of Immigration Literature to Be Distributed.

The board of commissioners of New Mexico for the Charleston exhibition has succeeded in arranging for an exhibit from New Mexico at Charleston. The Bureau of Immigration is now preparing to send 10,000 pamphlets and bulletins descriptive of the resources of the different counties to the board for distribution at the exposition. The board expects the citizens of New Mexico to aid in the matter of exhibits and exhibits have to be sent to R. W. D. Bryan, Esq., at Albuquerque. Arrangements have been made by which the A. T. and S. F. railway will transport the exhibit free of charge. The following letter received by the New Mexican is therefore published for the information of all concerned.

To the Editor of the New Mexican: Albuquerque, N. M., Feb. 6, 1902.—Dear Sir: I presume that you have seen in the Albuquerque papers which you get, the effort that is being made to raise enough money to secure an exhibit for New Mexico at the Charleston exposition. I am very glad to say that the public spirited citizens of Albuquerque have responded very nobly, and the \$500 necessary is practically secured. There is a small amount yet to be raised, but I think that we will be able to raise it. This is a work that ought to be done by the citizens of the territory at large, but I had no time to properly solicit subscriptions from them and was obliged to confine my attention to Albuquerque. The New Mexico commission appointed by Governor Otero, consists of W. H. Pope, chairman, Santa Fe; A. H. Harlike, vice chairman, Silver City; R. W. D. Bryan, secretary-treasurer, Albuquerque; Hugh N. Wilcox, Santa Fe, and Alva E. Page, Roswell.

Unfortunately the territorial legislature made no appropriation for the use of the commission. We have however collected a large amount of one from the different mining districts in New Mexico, and we will now have a very creditable exhibit. The Hyde Exploring Company will take charge of it. They will in connection with this make an exhibit of their own, consisting of blankets, pottery and Indian baskets, and will also have from 12 to 15 Indians weaving blankets and manufacturing silver ornaments. They will install the New Mexico exhibit, furnishing tables, show cases, shelving, labels, mottoes, etc., and we will give them as a part payment of the expenses, the sum of \$500.

Now that the exhibit is assured, I am very anxious to have it as full and complete as possible. I write therefore to you to request that you will use the influence of your paper and your personal influence in getting your constituents to furnish exhibits for the exposition. We would like to have ores, grains, wines, fruits and vegetables in their season. At present I presume the bulk of the exhibits will have to be of ores. It is quite important for New Mexico to have a full and complete exhibit of its varied mineral products.

The Santa Fe Railroad Company has very graciously agreed to ship free of charge all exhibits addressed to me at this place. All the agents of the company have instructions to that effect. So all your readers will have to do is to take their exhibits to the agent of the Santa Fe, and he will take charge of them and ship them to me free of charge. I will then see that they are sent to Charleston.

The advantages to the territory at large from this exhibit will be that it will be an advertisement that will attract the attention of men of means and thus induce capital and people to come into our territory. It will also attract the attention of the throng of tourists who annually go from the north to spend the spring months in Florida. It will also gain for us the good will of the senators and representatives of the southeast in congress and thus aid the statehood bill.

I would be very glad if you would do your part in having exhibits sent to me. I would like to have them as soon as possible. We hope to get off the first carload within the next ten days, but if exhibits come later I will ship them at any time.

You will also bear in mind that this exhibit will be, at the close of the Charleston exposition, sent to the World's fair at St. Louis.

I assure you that I appreciate the work of the newspaper men in developing New Mexico, and I therefore appeal to you confidently, and knowing that this enterprise will receive your hearty co-operation. It would please me if you would send me a marked copy of your paper which may contain a notice of this enterprise, and appeal to your readers to contribute towards the success of this exhibit.

R. W. D. BRYAN.
